Magnetic Vent/Register Covers

Testimonials...

"For years I've been searching for covers for my central air conditioning registers. The cold drafts were making my rooms colder as well as costing me more money to heat my home. All of the warm room air went up through the registers and into my ceilings. The Elima-Draft® covers not only have eliminated cold drafts but also have saved me money on my heating bills."

*Thank you,
 Frank T.
 (Stony Brook, NY)*

Finally...A Solution
Elima-Draft®
Magnetic Vent/Register Covers

Breathe Easier

Stay Warmer

"Thank you, thank you, and thank you. Up until this year, I've been cutting pieces of plexi-glass and covering my registers to stop cold drafts and heat loss. My solution was costly, time consuming and the finished product was unsightly. Now I have a faster, easier way to put them up, and one that looks great as well. Your covers are the best."

*Sincerely,
 Margaret L.
 (Bohemia, NY)*

"Your covers have made a world of difference in my house this past winter. You're right when you say "If you're not Elima-Draft® covered, you're not totally covered". My home was rated by an Energy Star Home rater and the recommendation was made to cover my registers w/tape and cardboard. I was convinced there was a need to cover them up, however not with taped cardboard. I saw your display in my local True Value Hardware Store and I was sold."

*Thank you,
 Jenny B.
 (Sayville, NY)*

"Your filtration covers changed my office. My staff and I felt the difference in the air the next day. When the filters were replaced, it was amazing to see the amount of debris that was eliminated from our air!"

*Dr. K. Lynch, DVM
 (Center Moriches, NY)*
